IN RE APPLICATION OF: Philippe LE TOURNEUR

SERIAL NUMBER: 10/733,282

FILING DATE: December 12, 2003

ATTN: APPLICATION BRANCH

FOR:

CODED TARGET FOR NEUTRON SOURCE

STATEMENT UNDER 42 USC 2182 (AEC)

ASSISTANT COMMISSIONER FOR PATENTS  
ALEXANDRIA, VA 22313

SIR:

I, Philippe LE TOURNEUR, being the Inventor herein, declare that the Applicant in the above-identified Application, and that the full facts concerning the circumstances under which the present invention was made and the relation of such invention to the performance of any work under any contract subcontract or arrangement entered into with or for benefit of the Department of Energy are as follows:

1. That the above invention was made, conceived and practice entirely on the time and efforts of the Applicant and at the sole expense and for the sole benefit of Applicant's Assignee, SOCIETE ANONYME D'ETUDES ET REALISATIONS NUCLEAIRES, with offices at 20, avenue Descartes 94450 LIMEIL BREVANNES-FRANCE, during the course of regular employment with said company at the facilities of SOCIETE ANONYME D'ETUDES ET REALISATIONS NUCLEAIRES, at 20, avenue Descartes 94450 LIMEIL BREVANNES-FRANCE.
2. The invention or discovery was not made, or conceived in the course of, or in connection with, or under any contract, subcontract, or arrangement entered into with or for the benefit of the United States Atomic Energy Commission or its successors Energy Research and Development Administration or the Department of Energy.

The undersigned Inventor declare further that all statements made herein of their own knowledge are true and that all statement made on information and belief are believed to be true; and further, that these statements were made with the knowledge that willful false statement and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

Date May 24, 2004

  
Philippe LE TOURNEUR
